2014 - 2016

**Responsible Research and Innovation (RRI)** is a framework to develop an ethically acceptable, socially desirable, and sustainable research. To do so RRI encourages all actors to make research and innovation more diverse and inclusive, open and transparent, anticipative and reflective, as well as responsive and able to adapt to changes.

**RRI Tools** is a European project aiming to develop a Toolkit on RRI with the participation of all the concerned stakeholders: Researchers, Civil Society, Innovators and the Education community, with a special focus on Policy Makers in order to impact significantly in the future governance of research and innovation.
